

First Aid 2

What is covered in this Course?

Where Level 1 First Aid teaches students HOW to treat a patient, this Level 2 Course will teach the student a better understanding of the different KINDS of treatment and WHY you need to perform a specific procedure.

Upon completion of this Course you will be a more EFFECTIVE First Aider.

The Level 2 examination contains more theory than in Level 1.

Students will be taught additional Procedures pertaining to the following:

- Primary Emergency Care
- Emergency Preparedness
- Emergency Scene Management
- First Aid/Lifesaving Procedures
 - Managing Shock
- Providing Emergency Care

*Students will require First Aid Level 1 to be eligible for this Course.
